

Table of Contents: Volume 3, 1993

Number 1

Sensitivity Analysis and Optimization of Stochastic Petri Nets	5
..... <i>F. Archetti, A. Gaivoronski, and A. Sciomachen</i>	
A Modeling Strategy for Hybrid Systems Based on Event Structures	39
..... <i>Philippos Peleties and Raymond DeCarlo</i>	
Recursive Computation of Limited Lookahead Supervisory Controls for Discrete Event Systems	71
..... <i>Sheng-Luen Chung, Stéphane LaFortune, and Feng Lin</i>	
Contributing Authors	101

Numbers 2/3

Editorial	<i>Y.C. Ho</i>	111
Frameworks for Evaluating Discrete Event Dynamic Systems		
..... <i>Bernard P. Zeigler and William H. Sanders</i>		113
An Environment for DEVS-Based Multiformalism Simulation in Common Lisp/CLOS	<i>H. Praehofer, F. Auernig and G. Reisinger</i>	119
A Simulation Environment for Multimodeling	<i>Paul A. Fishwick</i>	151
DEVS Methodology for Evaluating Time-Constrained Message Routing Policies	<i>Myung Soo Ahn and Tag Gon Kim</i>	173
Extending the DEVS Formalism for Massively Parallel Simulation	<i>Yung-Hsin Wang and Bernard P. Zeigler</i>	193
Specification Techniques for Markov Reward Models		
..... <i>Boudewijn R. Haverkort and Kishor S. Trivedi</i>		219
Modeling Discrete Event Systems with State-Dependent Deterministic Services Times	<i>Christoph Lindemann and Reinhard German</i>	249
Efficient Simulation of Hierarchical Stochastic Activity Network Models	<i>William H. Sanders and Roberto S. Freire</i>	271
Contributing Authors		301

Number 4

Editorial	<i>Y.C. Ho</i>	315
Letter to the Editor	<i>R. Smedinga</i>	317
Rebuttal: Le Style Est l'Homme, and Beyond	<i>David. D. Yao</i>	323
Sample-Path Analysis of Stochastic Discrete-Event Systems		
..... <i>Muhammad El-Taha and Shaler Stidham, Jr.</i>		325
Stationary IPA Estimates for Nonsmooth $G/G/1/\infty$ Functionals via Palm Inversion and Level-Crossing Analysis	<i>Pierre Brémaud and Jean-Marc Lasgouttes</i>	347

Transient Product Form Distributions in Queueing Networks	
..... <i>Richard J. Boucherie and P.G. Taylor</i>	375
Optimal Control of a Class of DEDS: Flow-Shops with State-Dependent	
Processing Times	
..... <i>E. Wagneur and C. Sriskandarajah</i>	397
Contributing Authors	427
